

Harper College CoReq Math Classes in Banner

How do these courses look in Banner?

For each section of MTH101 Quantitative Literacy it will look like an instructor is teaching 3 separate classes, but all 3 are actually one group of mixed college-level and coreq-level students.

Coreq students must sign up for BOTH the 101-501 and the 081-501 section. College-level students only sign up for the 001 section. This means MTWR the instructor has 32 students and on Friday the instructor only has the 14 coreq students.
