## INTRODUCTION

The *Illinois Public Community College Act* requires that all new curricula offered by Illinois' community colleges be approved by the Illinois Community College Board (ICCB). ICCB is also responsible for the appropriate classification of all new courses, changes to existing courses and changes to existing curricula, as well as approval of program-related services offered by the colleges. The purpose of the *Program Approval Manual* is to assist community college staff in following ICCB procedures that govern offering these programs, courses, and related services.

Definitions of Common Terms. Terms used in this manual are defined below.

- **Associate Degrees, Certificates and Courses** - Administrative Rules Section 1501.301 includes broad definitions for all baccalaureate/transfer degrees, AAS degrees and Certificates, and courses. Section 1501.302 includes definitions for degree credit hour ranges and general education credit hour requirements.
- **Baccalaureate/Transfer** - Refers to programs, such as the Associate in Arts (A.A.) or Sciences (A.S.), which provide individuals with two years of education in a prescribed general curriculum that will offer the opportunity for transfer into a baccalaureate program at a four-year college or university. Courses are credit-bearing for students and may transfer as program requirements or electives.
- **Career and Technical Education (CTE)** - Refers to programs and courses in an applied field of study that prepare individuals for employment, Courses are credit bearing for the student and may, but are not required to, transfer to a four-year college or university.
- **Classification of Instructional Programs (CIP)** – CIP codes, have been developed by the U.S. Department of Education (USDOE)-National Center for Education Statistics (NCES) to help states identify the content of a wide range of academic and career and technical instructional programs offered at the secondary and postsecondary levels. Every approved credit program (e.g. A.A.S. degree or Career Certificate) offered by a community college has a 6-digit CIP code assigned to it, i.e. 48.0508 Welding Technology. Programs are assigned CIP codes by community college staff and are approved by ICCB staff. These codes help:
  - 1) categorize instructional offerings consistently statewide;
  - 2) track student enrollments and completions at the program level, and;
  - 3) connect secondary offerings with postsecondary offerings.
- **Cooperative Agreements:** Cooperative agreements between community colleges and other higher education institutions outside of the community college's district are subject to ICCB approval (see ICCB Rule 1501.307). This applies to new units of instruction to be offered by a community college solely through a cooperative agreement or contract with another educational agency for which an existing arrangement *does not* already exist.
- **CAREER Agreement:** the *Comprehensive Agreement Regarding the Expansion of Educational Resources*, commonly referred to as the **CAREER** Agreement allows students to attend programs in neighboring districts if the home district does not offer the desired program. Currently, all 39 Community College Districts, and all 48 Community Colleges, participate in the CAREER Agreement.
- **Funding Category** - Groupings of courses based on instructional intent, and identified by the PCS Code, which are reimbursed by credit hour according to a defined rate. There are six (6) ICCB Funding Categories. The funding category is determined based on the PCS/CIP code combination. See the ICCB Funding Category Table in the Course Section of this Manual for more information.

**Program Approval Manual  
November 2022**

- **Generic Course List** – The composite listing/database of all categories of courses offered by community colleges in Illinois. Each generic course is assigned a unique PCS/CIP number (Generic Course Code) which determines the funding category for an institution's specific course.
- **Illinois Articulation Initiative (IAI)**: To facilitate transfer from one participating college or university to another in order to complete a baccalaureate degree.
- **ICCB Course Master File** – The computerized listing of courses classified for each college. The college's credit hour claim is processed against the Course Master File.
- **ICCB Curriculum Master File** – The computerized listing of curricula approved by the ICCB for offering at each community college in Illinois, designated by **college-selected** prefix and number. Student data are submitted by curriculum prefix and number and matched to the Curriculum Master File.
- **iTransfer.org**: A web site developed through IAI that provides information on transferring from one post-secondary institution to another within the State of Illinois. <http://itransfer.org/>
- **PCS** – Program Classification System (PCS) is a two-digit number used for identifying both instructional programs and other functions of the college. For example, PCS 1.1 refers to Baccalaureate/Transfer programming and courses, PCS 1.2 refers to CTE, PCS 1.4 refers to Developmental or Remedial Education, PCS 1.6 Vocational Skills, PCS 1.7 and 1.8 refer to Adult Education and PCS 1.9 ESL.
- **Syllabus** – A document prepared and maintained for each course offered by the college that contains specific written objectives, description of the course, a topical outline, and method of student evaluation.
- **Unit Cost** – The amount of money spent both directly and indirectly, by the college to generate a single credit hour. This can be obtained from the annual ICCB *Unit Cost Report*.
- **Unit of Instruction** – A curriculum program consisting of a sequence of courses which, when successfully completed, earns the student an associate degree or a certificate.
- **Vocational Skills** - Courses that prepare individuals for entry-level short-term employment, or provide an upgrade to existing employment skills. Vocational skills courses are not credit-bearing for the student but are classified for credit hour reimbursement funding.

# Section I - CURRICULA

## Curricula

Various Illinois agencies and organizations impact the ICCB policies and procedures noted in this manual and, likewise, impact community college programs. Two of these agencies play a primary role in approval of community college instructional programs.

- **The Illinois Board of Higher Education (IBHE)** - The Illinois Board of Higher Education, the state's coordinating agency for higher education, is responsible for approving new colleges, college branches and permanent new units of instruction, research, and public service for all Illinois public universities and community colleges; for developing a statewide master plan for higher education; and for recommending to the Governor and the General Assembly the annual state budget requests for higher education. The ICCB coordinates program approval for degrees with the IBHE.
- **The Illinois State Board of Education (ISBE)** – The Illinois State Board of Education is the administrative entity for the federal Strengthening Career and Technical Education for the 21<sup>st</sup> Century Act (Perkins V). ISBE and ICCB work in collaboration to administer Perkins V to the secondary and postsecondary education systems. Specifically, ISBE and ICCB collaboratively approve CTE Programs of Study, which are required by the Act to receive funding.

Other state agencies play a complementary role for community colleges developing instructional programs.

- **The Illinois Department of Finance & Professional Regulation (IDFPR)** – The Illinois Department of Finance & Professional Regulation is responsible for maintaining standards of competence by license holders in order to protect the public. Numerous professional and occupational groups and licenses are regulated by IDFPR. Instructional programs in these fields offered by community colleges should meet corresponding IDFPR licensing standards.
- **The Illinois Department of Employment Security (IDES)** – The Illinois Department of Employment Security provides detailed long- and short-term occupational and industry employment projections, entry- and experienced-level wage data, career information, and skills information for the State of Illinois. Much of this information is available at the statewide level or at various regional or local levels (such as for community college districts). The ICCB encourages community colleges to use this information in planning, developing, and reviewing career and technical programs.
- **The Illinois Department of Commerce and Economic Opportunity (IDCEO)** – The Illinois Department of Commerce and Economic Opportunity encourages statewide economic development by cultivating industry-based, high skill, high need programming that will foster a well-trained workforce. Through the Office of Employment and Training, youth, adults and dislocated workers who are eligible for training assistance under Title I of the Workforce Innovation and Opportunity Act (WIOA) are identified and recommended for educational programs. The agency also works closely with community college business and industry centers to establish strong community-employer connections.

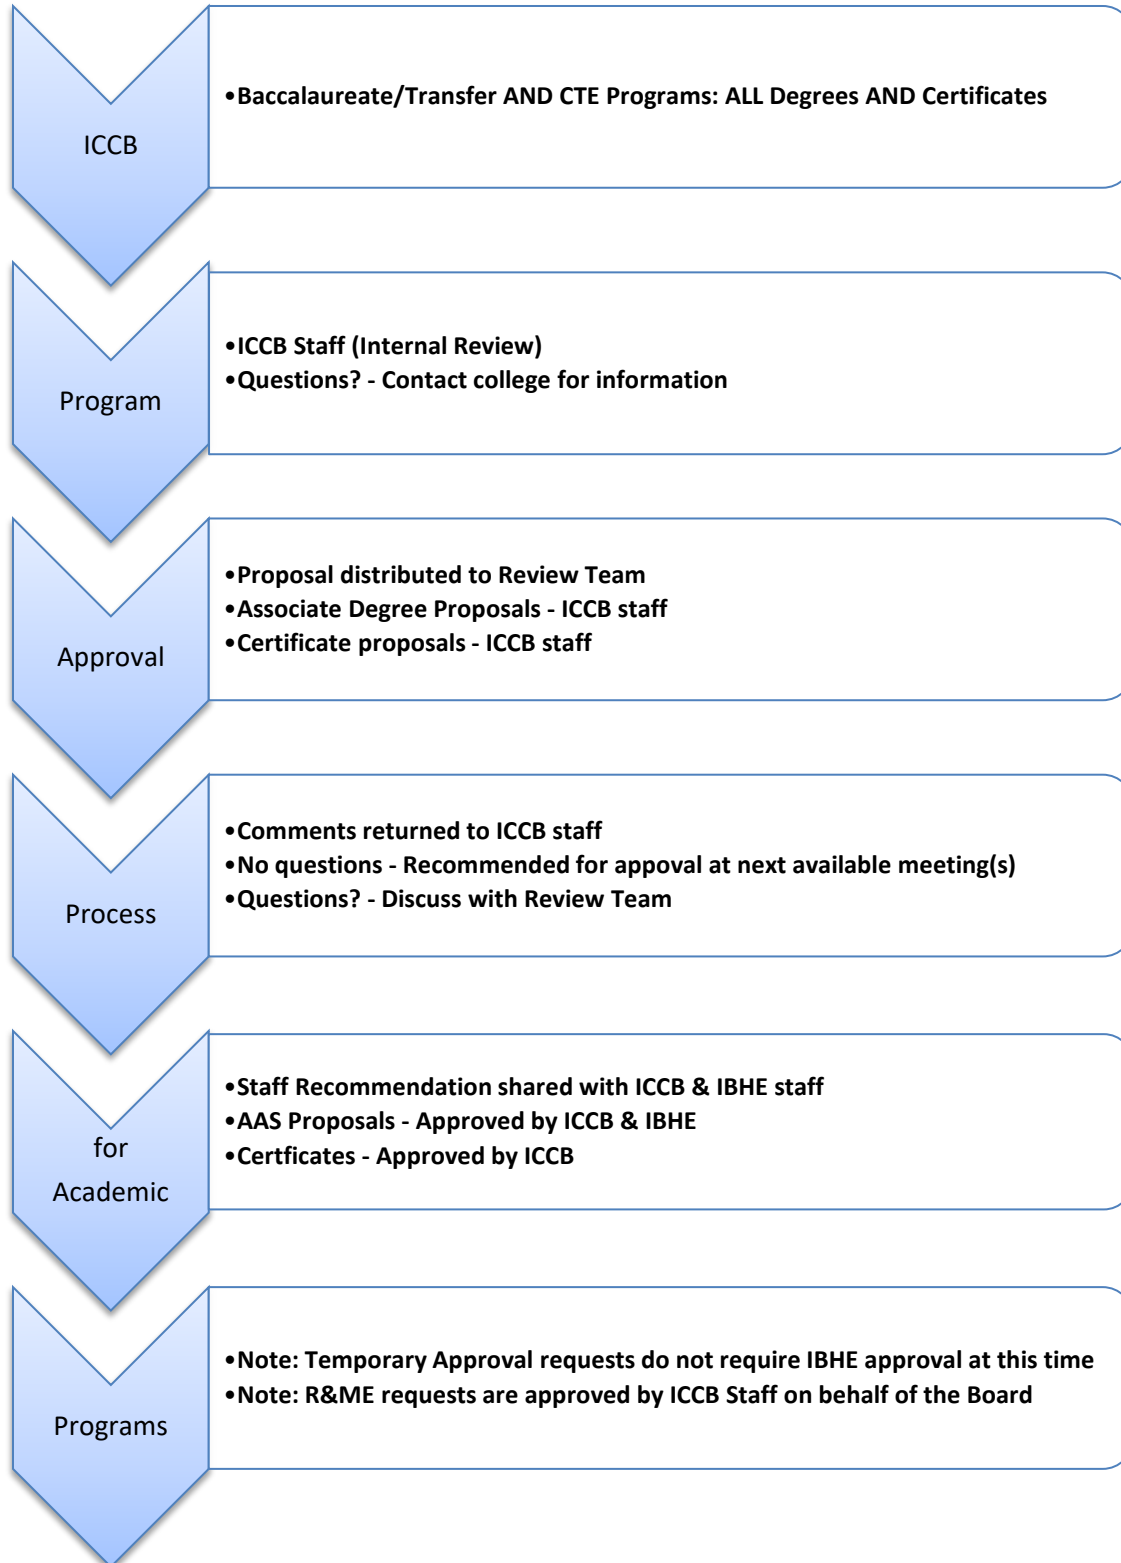

### Approval Application Guide – QUICK REFERENCE

The ICCB is responsible for approving all curricula to be offered by the colleges. This includes baccalaureate/transfer programs such as the Associate in Arts or Associate in Science degrees, as well as career and technical education programs such as the Associate in Applied Science degrees and Career and Technical Education (CTE) Certificates. Each of these programs requires a specific application be submitted to ICCB staff for review and a recommendation made to the ICCB for final approval.

The following chart briefly describes various program types and the appropriate application form for each. More detailed information/instructions regarding the application process for each program is provided later in this section.

## Baccalaureate/Transfer Degree Approval

Associate in Fine Arts (AFA), Associate in Engineering Science (AES), or Associate in General Studies (AGS)

### INSTRUCTIONS

Community Colleges are required to submit requests to offer new degree programs to the ICCB for review and approval. **The curriculum approval application should be completed in its entirety, with electronic copy (MS Word format, or MS Word and PDF) emailed to ICCB staff.**

**Please send applications via email to:**

Tricia Broughton, Director for Curriculum & Instruction  
[tricia.broughton@illinois.gov](mailto:tricia.broughton@illinois.gov)

**Application Timeline.** Applications may be submitted any time during the year. Requests are reviewed on an ongoing basis. Clarification and/or additional information may be requested by ICCB staff if the application is unclear or incomplete. All requests must be reviewed, recommended and approved by ICCB and IBHE. The Board considers new program requests at each meeting.

**Application.** To apply for approval of an AFA, an AES, or an AGS, submit Form 20B, along with appropriate attachments, including the Form 22 "Curriculum Addition/Withdrawal/Change to the Curriculum Master File". The program should be consistent with the program models developed by the Illinois Articulation Initiative state articulation panels and the program model contained in this section. If a major also provides additional information with an associated specialized degree, that information is available on the iTransfer.org website: <http://itransfer.org/courses/majors/> and select the appropriate major. **NOTE:** The signature boxes must remain on the cover page of the application.

**NOTES:**

**For AFA only:** If the original application for an AFA is for fewer than four options, a college may pursue adding one or more options at a later date by submitting a completed "Reasonable and Moderate Extension Request for an Associate in Fine Arts (AFA) Degree" Form 21FA.

**For AGS only:** The Associate in General Studies degree (sometimes called the Associate in Liberal Studies) is a degree that is customized to meet the unique needs of students with objectives that are different than those of the transfer degrees or the occupational degrees. This degree is designed with a college counselor to meet a student's objectives such as obtaining a two-year liberal education, obtaining a degree to meet employment needs not possible through other programs and enhancing opportunities for individuals who have completed a certificate program. While the degree is very flexible, the college must have appropriate structures and procedures in place to ensure that the degree meets the objectives for which it is designed and ensure that the appropriate courses are selected to complete the degree.

**For AFA and AES only:**

**Program Assessment-** *The following information must be included within the application:*

1. How is this program unique? (Program goals and student learning outcomes can be listed to differentiate this program from other programs offered by the college.)
2. How will students be assessed prior to graduation? (Briefly state the multiple qualitative and quantitative measures that will be used.)

**Program Approval Manual  
November 2022**

3. What means of feedback will the college use in order to determine program quality and success of graduates? (Input from various stakeholders, program review outcomes, student follow-up results, etc.)
4. How will students and program assessment lead to *Continuous Quality Improvement (CQI)* of the college? (How will assessment ultimately improve the curriculum, instruction, and student learning?)

**For More Information:** Questions regarding the completion of the application can be directed to ICCB Academic Affairs staff. Pertinent information is also contained in the [Administrative Rules](#). Contact Tricia Broughton at [tricia.broughton@illinois.gov](mailto:tricia.broughton@illinois.gov) with questions.

**Approval Notification.** Once approval by all appropriate Boards has been granted, ICCB Academic Affairs staff will notify the appropriate college staff by email. Approval documentation will include a copy of the dated Form 20B cover page, a copy of the processed Form 22, and an approval letter from our Executive Director to the College President indicating the approval dates of both Boards. Questions regarding the status of this documentation should be directed to Tricia Broughton at [tricia.broughton@illinois.gov](mailto:tricia.broughton@illinois.gov) .

## CHAPTER 2: CAREER AND TECHNICAL EDUCATION

## Career and Technical Education Program Approval

**Career and Technical Education (CTE)**, according to the Illinois Community College Board Administrative Rules, can be described as a prescribed sequence of courses, a curriculum, which prepares students for employment in a specific field. CTE offers students the opportunity to earn a college-credit level credential, update a skill set, and/or continue their education to the baccalaureate level. Community Colleges in Illinois offer hundreds of educational programs in career and technical fields. Developing these programs according to ICCB Rules and Policies, outlined in this section, ensure the highest program quality and best educational opportunities for our students.

### Review and Approval of Career and Technical Education (CTE) Curriculum

All new CTE curricula must be approved by the Illinois Community College Board. Associate in Applied Science (A.A.S.) degree programs require approval by the Illinois Board of Higher Education as well. Appropriate staff will review the application and inform the college whether the proposed program will be recommended for approval or if further information is needed before a recommendation can be made (see flow chart).

#### Application Review Process

Complete the appropriate CTE Approval Application and submit two (2) copies to ICCB – one hard copy and one electronic copy. The electronic copy, in MS Word format, can be emailed to the appropriate Academic Affairs Staff. See Instructions. The review process used for *new unit* requests varies according to the type of curriculum proposed and the category of approval requested. The following describes:

- (A) the CTE program categories of approval that may be requested; and
- (B) descriptions of the review process utilized for each type of CTE curriculum

#### Career & Technical Education Curriculum Approval Categories

There are three categories of CTE curriculum approval: Permanent, Temporary, and Reasonable & Moderate Extensions. The categories of approval utilize different application forms and criteria. CTE curriculum approval may be requested as follows:

1. **Permanent Approval** may be requested for **any A.A.S. degree or Certificate** by submitting a **Form 20**.
2. **Temporary Approval** may be requested for **any A.A.S. degree or Certificate that meets the following criteria** by submitting a **Form 20T**:
  - (1) addresses emerging occupations, or
  - (2) meets immediate and temporary needs in the community.
3. **Reasonable & Moderate Extension (R&ME) Approval** is a permanent approval and may be requested for **any A.A.S. or Certificate that is an option or subset of an existing, permanently approved curriculum**. R&ME programs *can not* be developed from a Parent program will Temporary Approval. More detailed guidelines regarding application criteria for an R&ME are provided later in this section.

#### Review Processes

1. **Associate in Applied Science Degree (A.A.S.):** An application for a new A.A.S. degree is reviewed by a team of ICCB staff. Information is shared with IBHE staff. The college may be asked to provide the review team with additional information. The review team develops a consensus recommendation that is presented to the ICCB for permanent and temporary approval, and to the IBHE if/when permanent approval is requested.

**Program Approval Manual  
November 2022**

2. **Certificates:** An application for a new Certificate is reviewed by staff from ICCB. The college may be requested to provide additional information. Staff will develop a recommendation to be presented to the ICCB for approval. If the proposed certificate is less than 30 semester credit hours, the Executive Director of ICCB may approve the Certificate on behalf of the Board.
3. **Reasonable & Moderate Extensions (A.A.S. degrees or Certificates):** An application for an R&ME is reviewed by staff from ICCB. The college may be requested to provide additional information. Staff acceptance of the R&ME will be made once all materials are complete and requests for clarification/ additional information have been satisfied. R&ME requests *do not* require ICCB board action.

CTE Approval Applications

Applications for approval should be submitted to ICCB staff as follows: one electronic copy (MS Word or pdf format) emailed to ICCB Academic Affairs Staff. See Instructions. Applications can be found in **CHAPTER 2: CAREER AND TECHNICAL EDUCATION**. Questions regarding the completion of the application(s) can be directed to ICCB Academic Affairs staff.

Application Time Lines

- To provide maximum flexibility to colleges in program development and implementation, applications for CTE curriculum approval may be submitted for consideration at any time and may be recommended for action at any ICCB meeting during the year. A.A.S. degree programs for which permanent approval is requested require ICCB and IBHE approval. All Certificate programs and A.A.S. degree programs for which temporary approval is requested require ICCB approval only.
- For applications that are complete and require little or no revisions or clarifications, the time required for ICCB staff to review the proposal, seek comment from staff at IBHE, and make a recommendation for Board action should range from six weeks for requests for temporary approval to eight weeks for requests for permanent approval. Recommendations are not final until the ICCB or its designees (and IBHE, if applicable) have acted upon them.
- For Associate in Applied Science degree programs that require approval by both ICCB and IBHE, recommendations must be taken to the ICCB first, followed by a recommendation to the IBHE.

NOTE: While staff will make every effort to process applications according to these time estimates, keep in mind that if additional information and/or discussion are needed during the review OR if Board agenda timelines prohibit our recommendations to a given meeting, the proposed program may not be recommended to the Board for action within this time frame. It is advisable to submit applications as far in advance of the proposed implementation date as feasible. Staff will make every attempt to respond to the program request within 30 to 45 days.

In general, the ICCB cannot guarantee board approval for any programs by the fall semester for applications submitted after March 31<sup>st</sup> of each year. The ICCB cannot guarantee board approval for programs by the spring semester for applications submitted after October 31<sup>th</sup> of each year. *This timeline varies according to the ICCB/IBHE meeting schedule and internal agenda deadlines and meeting these deadlines does not guarantee Board approval for your intended implementation semester.*

**Board Meeting dates can be found on the ICCB and IBHE websites as follows:**

**GUIDELINES FOR PERMANENT APPROVAL OR  
DISCONTINUATION OF PROGRAMS WITH TEMPORARY APPROVAL**

- A. Permanent program approval for programs with temporary approval will be considered, due no later than September 1<sup>st</sup> during the year temporary approval expires. Colleges may, however submit their request for permanent approval at any time. At such time, the college will be asked to indicate whether it will 1) seek permanent approval for the program, or 2) discontinue the program. **NOTE:** Please *do not* submit the Form 20P with your college's Program Review Submission. Instructions on submission are described below.
- B. If permanent approval is sought, the college will be asked to provide a completed Form 20P(add). ICCB staff will review the application and make a recommendation to both the ICCB and, when appropriate, the IBHE for permanent approval.
- C. If permanent approval is not recommended for a program, ICCB staff will work with college staff to (1) provide a plan for improvement and timeline for a follow-up permanent approval request or (2) direct the college to implement the alternatives for students that were included in the request for temporary approval and to close the program as soon as those alternatives will allow.
- D. If the college does not wish to seek permanent approval for the program, it will be asked to provide a completed Form 20P(discontinue) including a rationale for the decision and specific information about the alternatives available to students currently enrolled in the program.

**Application:** Complete the Form 20P (add) or Form 20P (discontinue) as indicated. Include the Form 22 "Curriculum Addition/Withdrawal/Change to the Curriculum Master File". **NOTE:** The signature boxes must remain on the cover page of the application.

**Application Submission:** The permanent approval application (Form 20P add or discontinue) should be completed in its entirety, with one electronic copy (MS Word format or PDF) emailed to ICCB staff.

**Please send applications via email to:**

APPLICATION FOR PERMANENT APPROVAL  
Of AN ILCCO ONLINE CURRICULUM

INSTRUCTIONS

The Form 20-Online (OL) is only to be used when an institution (receiving college) is seeking approval to offer an online program (not a single course) currently approved at another institution (teaching college) through Illinois Community Colleges Online. The receiving college may already be approved for and offer the requested program but is making the request because it is not currently offered online. If the receiving college does not currently offer the program, should the college decide to develop the program, it would then be required to complete the full Form 20 application process. The requesting college is not seeking approval for online delivery. Colleges are *not required to seek separate approval to deliver curriculum via an online* format. This application will be reviewed by ICCB staff to ensure the receiving college's request meets the minimum criteria for approval to offer a new unit of instruction within their district.

**Application. Complete the Form 20-OL as indicated.** Include the Form 22-OL "Curriculum Addition/Withdrawal/Change to the Curriculum Master File". **NOTE:** The signature boxes must remain on the cover page of the application.

NOTES on Approval of Related AAS Degree and Certificate Curricula. When applying for approval of closely related AAS degree and certificate programs, the college can submit a single application that reflects all programs. (For example, a hospitality management AAS and certificate would use a single application.) Submit a separate Chart C: Curriculum for each program.

**Application Submission:** The curriculum approval application should be completed in its entirety, with one electronic copy (MS Word format or MS Word and PDF) emailed to ICCB staff.

**Please send applications via to:**

Questions regarding the completion of the application can be directed to ICCB Academic Affairs staff. Pertinent information is also contained in the [Administrative Rules](#). Contact Tricia Broughton at [tricia.broughton@illinois.gov](mailto:tricia.broughton@illinois.gov) with questions.

**Approval Notification.** Once approval by all appropriate Boards has been granted, ICCB Academic Affairs staff will notify the appropriate college staff by email. Approval documentation will include a copy of the dated Form 20OL cover page, a copy of the processed Form 22, and an approval letter from our Executive Director to the College President indicating the approval dates of both Boards. Questions regarding the status of this documentation should be directed to Tricia Broughton at [tricia.broughton@illinois.gov](mailto:tricia.broughton@illinois.gov).

[Reasonable and Moderate Extension Request \(Form 21/21S\) Criteria](#)

ICCB rules permit two types of reasonable and moderate extensions, with appropriate forms for each, and require acceptance by ICCB staff:

**1. Creation of New Certificates or Degrees via R&M E (Form 21)**

**New certificates or degrees** may be created through the reasonable and moderate extension process when the new program is closely related to an existing program(s). This process allows the college to create the new program from an existing “parent program”, following parameters in ICCB Rule 150I.302(d)2 d and e. New certificates or degrees created as options or subsets of existing programs require the Form 21, "Reasonable and Moderate Extension Request".

a) **AAS or Certificate Options:** AAS or certificate options are programs that are very similar to their parent program and in the same general occupational field, but include coursework that focuses on a given specialty. An option may be created by primarily using courses in the parent program or cluster of closely related curricula; and new or different courses as needed, provided that **no more than 15 credit hours are different in AAS options or no more than nine (9) credit hours are different in certificates of 30 semester hours or more.**

For example:

- AAS option: If a college currently offers an Office and Administrative Technology AAS, it may be used as a parent program to create an Office and Administrative Technology/Legal Option AAS. The college would primarily use courses in the parent program and could also use up to 15 different credit hours not currently in the parent program if needed to provide the legal secretary instruction.

b) **Subsets/creating certificates from larger certificates or degrees:** New certificate programs may also be created as subsets of existing AAS degrees and certificates. The new certificate may be created by primarily using courses in the parent AAS or certificate program or a cluster of closely related curricula; e.g., from the same four-digit CIP code and, in some cases, a few different courses as needed, provided that **no more than nine (9) credit hours are different in certificates of 30 semester hours or more and no more than six (6) credit hours are different in certificates of less than 30 semester credit hours.**

For example:

- New certificates of 30 semester credit hours or more: If a college has an AAS degree in Office and Administrative Technology and a certificate in microcomputer/software applications, it could create a 35 semester credit hour certificate in information processing. The college would primarily use courses in the AAS and certificate, but may use up to nine (9) different credit hours in the new certificate; for example, to provide additional instruction on information processing. Both of these existing programs serve as the parent program, with the program that is the source of the bulk of the credit hours being cited as the parent program on the Form 21.
- New certificate of less than 30 semester credit hours: If a college has a 45 credit hour certificate in Business Management, it could be used as the parent program to create a 25 credit hour certificate in small business management. This certificate would primarily consist of existing required courses in the Business Management certificate and could use up to six (6) different credit hours; for example, to provide instruction on entrepreneurship. Up to one-half of the credit hours can be used as electives.

**NOTES:**

- A college **CAN NOT** create a new certificate or degree that is larger than its parent program, e.g. creating an AAS from a certificate, nor an AAS degree/degree option that is larger in credit hours than its parent program.
- A college **CAN NOT** create a new certificate or degree via the RM&E process using a parent with *temporary* approval.
- A college **CAN NOT** create a new certificate or degree using Parent curriculum that has an Inactive or Withdrawn status.

**2. Creation of New short-term certificates (Form 21S)**

A college may create a new Short-term Certificates of less than nine (9) semester credit hours of *new* courses in a two-digit CIP category in which the college has previous approval to offer one or more programs. This requires completion and acceptance of the Form 21S “Reasonable and Moderate Extension: Short-Term Certificate”. In this approval scenario, the existing/parent program to be cited on the Form 21S is an active program (AAS degree or certificate) from the same two-digit CIP code in which the reasonable and moderate extension is being created. For example, if the proposed R&M is a Phlebotomy Certificate (CIP 51.1009), the parent program could be the Nursing AAS degree (CIP 51.3801).

**Notes on Reasonable & Moderate Extension (RME) Criteria:**

Please refer to ICCB's System Rules Section 1501.302 d)2) for the credit hour differences allowed in the development of RME degrees and certificates.

An RME is allowable based on the relationship the proposed extension has with the original parent program. This relationship is determined by commonality between the two programs including associations such as CIP code, program purpose, and credit hours. To summarize the criteria for an RME from System Rules, in a proposed RME the following criteria must be met:

- In an A.A.S. degree, no more than 15 credit hours of different coursework is allowed;
- In a Certificate of 30 credit hours or more, no more than 9 credit hours of different coursework is allowed;
- In a Certificate between 9-29 credit hours, no more than 6 credit hours of different coursework is allowed.
- For Certificates less than 9 credit hours, refer to the Form 21S application instructions.

Please note: "Different" coursework is *not limited to* new coursework. Different refers to credit hours/coursework not specifically required in the general education, CTE component, or elective options within the parent program.

## **EXTENSION OF COURSES OR CURRICULA OUT OF STATE**

ICCB Rule 1501.307h specifies that all out-of-state extensions operated by the college must obtain ICCB approval. Extensions are sites used by the college to offer instruction. Extensions may be operated for district residents or for out-of-state students. At the end of each fiscal year, the college must submit a report to the ICCB on the operation of each out-of-state extension. **Requests for ICCB approval of out-of-state extensions shall be submitted on Form 18A, and the annual report on out-of-state extensions shall be submitted on Form 18R.**

**Please direct all application and other related questions to Tricia Broughton.**

**NOTE:** Travel or field trips that supplement a course offered at the college do not constitute a separate extension and, hence, do not require ICCB approval. Instruction offered out of state through contract with an out-of-state community college, college, or university is not included under section 1501.307h and does not require Form 18A or Form 18R. Also, colleges that offer courses that are developed and approved by the Illinois Consortium for International Studies and Programs (ICISP) do not need to submit Form 18A or Form 184R for those courses.

**Application for Approval to Extend Courses/Curricula Out of State - Form 18A.** The initial request for approval of an out-of-state extension may be submitted at any time. A separate Form 18A shall be submitted for each out-of-state extension.

Out-of-state extensions may be for out-of-state students or for in-district residents. Extensions for in-district residents may use local and state funds; however, extensions for out-of-state students must verify that no state or local tax funds are used.

A limited amount of space is provided on the form for data regarding both curricula (in to) and courses (only) which are to be extended (append additional pages as needed). Complete the section(s) appropriate for your college.

A copy of the Form 18A will be returned to the college following action by the ICCB.

**Please send applications in MS Word or PDF format via email to:**

**Annual Report on Courses/Curricula Extended Out of State - Form 18R.** Each college granted an out-of-state extension must submit an annual report on Form 18R by July 15 following the end of the fiscal year. There is a limited amount of space on the form to report information on either curricula (in to) or courses (only) extended (append additional pages as needed). A separate report (Form 18R) must be submitted for each out-of-state extension.

## CHAPTER 3: THE ICCB CURRICULUM MASTER FILE & CIP LIST

### **Curriculum Master File**

The ICCB Curriculum Master File is the official record of approved curricula for each college. Before offering a new curriculum, colleges are required to obtain ICCB approval via a Form 20 or Form 21. The ICCB Form 22 is used to add a new curriculum; inactivate, reactivate, or withdraw an existing curriculum; and make changes to an existing curriculum on the Curriculum Master File (e.g., title, credit hours, etc.). New curriculum additions are submitted with a New Program Application in hard copy format. Changes to existing curricula, including inactivation or withdrawal, are submitted electronically via ICCIS, the Illinois Community College Information System. **Requests for changes to curricula should be submitted at least 30 days in advance of the date the changes are expected to take effect.**

Since student enrollment and completion data submitted by each college are run against the college's ICCB Curriculum Master File, it is VITAL that the information on file be accurate and that the ICCB Curriculum Master File match the college's curriculum information.

Authorized Users can retrieve a current curriculum master file for their institution through ICCIS. Curriculum master file lists may also be requested by contacting ICCB Information Technology staff at (217) 785-0123 or [dp@iccb.state.il.us](mailto:dp@iccb.state.il.us). The headings/descriptions for each field on the Curriculum Master File are indicated on the following page.

### **CIP List**

ICCB staff use the Standard Classification of Instruction Programs (CIP) to classify all instructional programs. All programs are assigned a CIP code for tracking student enrollment, completion, and placement and transition data. Questions regarding assignment of CIP codes should be directed to ICCB Academic Affairs staff. The ICCB Modified CIP List can be found in: [Appendix A](#) of this manual.

### **ICCIS**

The Illinois Community College Information System, ICCIS, is a web-based application ICCB uses as a tool which allows colleges to submit specific types of requests online for staff review and approval. The section on Curriculum Additions/Withdrawals/Changes provides more detail on which curricular submissions can be submitted through ICCIS. Each college is allowed 1-4 ICCIS authorized users. These are individuals responsible for entering the appropriate curricular/course information into the system and submitting it for ICCB review/approval. Those individuals must be added to ICCIS as an authorized user before they can access and submit college-specific information.

The ICCB ICCIS site can be found at <http://iccbdsrv.iccb.org/iccis/> .

NOTE: Paper forms provided in this Manual are for contextual reference only, unless otherwise noted. ICCB does not require the submission of a paper form to add, withdraw, modify or reuse courses, nor to modify, inactivate or withdraw curricula. Paper forms are *only always* required to add new curricula as submitted with the appropriate new program application.

If you have issues with ICCIS, need to add a User at your institution, or need to request a change to a pending submission, please contact Tricia Broughton at [tricia.broughton@illinois.gov](mailto:tricia.broughton@illinois.gov). NOTE: Authorized Users are limited to 3-4 individuals per district/institution.

## SAMPLE OF MASTER FILE LISTINGS

Following is an example of what a Curriculum Master File listing would look like if requested by your institution from ICCB. Each of the fields in the record has been labeled and a description of the field provided below.

Colleges should retrieve an updated Curriculum Master File from ICCB on a regular basis. Utilize ICCIS or contact ICCB IT staff at [dp@iccb.state.il.us](mailto:dp@iccb.state.il.us) for this information.

## CHAPTER 4: OTHER CURRICULAR CONSIDERATIONS

## OTHER CURRICULAR CONSIDERATIONS

### **Appeal Process**

If ICCB staff does not recommend approval of a new curriculum, the college may appeal the decision by notifying the ICCB Executive Director in writing. In cases where IBHE approval is required, but not recommended, the college may appeal the decision by notifying the IBHE Executive Director in writing, with a copy to the ICCB.

### **Higher Learning Commission (HLC) Program Approval**

The Higher Learning Commission (HLC) is an independent corporation and one of two commission members of the North Central Association of Colleges and Schools (NCA), which is one of six regional institutional accreditors in the United States. The Higher Learning Commission accredits degree-granting post-secondary educational institutions in the North Central region.

The HLC requires approval for community college academic and CTE programs that are Title IV eligible. HLC approval covers program design, not curricular design. This policy applies to all new Degree and Certificate programs (16 semester credit hours or greater). Exceptions to this policy include new Degree and Certificate programs that include 50 percent or more of its coursework from previously approved programs. This would include any new programs eligible for ICCB approval through the Reasonable & Moderate Extension process.

Following is a link to HLC's website page which describes what requirements may apply to changes in certain categories:

<https://www.hlcommission.org/Accreditation/changes-requiring-approval-or-notification.html>

ICCB approval, and IBHE approval where appropriate, ***is required before*** you submit to HLC for approval. Please be aware of Board approval timelines, including the college's Board of Trustees, the ICCB, and the IBHE, as well as HLC approval when planning programs and establishing goals for implementation.

### **The CAREER Agreement**

Different from a Cooperative Agreement between a Community College and another institution of higher learning, the *Comprehensive Agreement Regarding the Expansion of Educational Resources*, commonly referred to as the **CAREER** agreement was approved by the ICCB in 2016. Currently, all 48 community colleges participate in the agreement. A listing of institutions and sections of the agreement can be found using the following link:

<https://www.iccb.org/cte/wp-content/uploads/2017/02/CAREER-AGREEMENT.pdf>

### **Approval of Cooperative Agreements for Instruction**

Cooperative agreements between community colleges and other higher education institutions are subject to ICCB approval (see ICCB Rule 1501.307).

This applies to new units of instruction to be offered by a community college solely through a cooperative agreement or contract with another educational agency for which an existing arrangement *does not* already exist. These are agreements made between specific institutions that go beyond the terms of the System-wide CAREER Agreement.

**Application Submission:** Typically, cooperative agreements are approved at the same time a new unit request is submitted. ICCB staff review the application and work with the college to address any questions or concerns. The agreement would be approved along with the proposed related program.

Agreements made outside of a new unit request should be submitted to ICCB Staff for review and recommendation to the Board for approval. Agreements should be submitted at least eight weeks in advance of the ICCB meeting at which action could be taken. The proposed Cooperative Agreement should be submitted to ICCB Academic Affairs Staff, one electronic copy (MS Word or PDF format is acceptable), via email for consideration.

#### **Please send agreements via email to:**

Tricia Broughton, Director for Curriculum & Instruction

[tricia.broughton@illinois.gov](mailto:tricia.broughton@illinois.gov)

NOTE: ICCB approval is *not* needed for:

- agreements with secondary schools;
- agreements between community colleges and other institutions within the same higher education regional consortium, including in-district agreements and inter-district agreements, as such agreements within the consortium were approved by action of the ICCB at its June 1995 meeting.
- modifications of existing agreements, including to add programs.
- extension of credit courses into another community college district (permission of that district is required)

### **Program Review**

Program review was established in 1983 by the Illinois Community College Board. It is a primary accountability effort which has been individualized at each campus. Colleges have the latitude to establish their own process within certain parameters. These are listed below along with report submission requirements.

ICCB Rule 1501.303 d) Review & Evaluation of Program requirements:

- 1) Each college shall have a systematic, college wide program review process for evaluating all of its instructional, student services, and academic support programs at least once within a five-year cycle.
- 2) The minimum review criteria for program review shall be program need, program cost, and program quality, as defined by each college.
- 3) The review of academic disciplines, student and academic support, cross-disciplinary instruction (remedial education, adult education and vocational skills), and career and technical education shall be scheduled according to the published ICCB schedule. A college shall follow the published schedule set by ICCB that shows when each program will be reviewed during a five-year cycle. If a college seeks an exception to the published schedule, the college must receive written approval from ICCB.
- 4) The five-year schedule of program review is determined through a combination of several factors as identified by ICCB.
- 5) The ICCB may request the college to include special reviews of programs that have been identified as a result of state-level analyses, legislative resolutions, or IBHE policy studies by notifying the college of this request prior to January 1 of the year the special review is to be conducted.
- 6) Each college shall keep on file for ICCB recognition purposes a copy of its current program review process, its five-year schedule for program review, and complete reports of program reviews conducted during the past five years.
- 6) Each college shall submit to the ICCB, by September 1<sup>st</sup> each year, a summary report of its previous year's program review results and a copy of its current five-year schedule of program reviews in a format designated by the ICCB. If a college cannot meet this deadline, a written request for an extension shall be submitted to approval from ICCB.

An Illinois Community College Board publication, [Community College Program Review Manual FY 2022-2026](#) provides more detailed information on program review requirements. It includes features of successful program evaluation systems; sources of need, quality, and cost data; and suggested indicators.

Any questions regarding Program Review should be directed to [Natasha Allan](#).

## Section II - COURSES

## COURSE APPROVAL

All courses, for which the college seeks credit hour reimbursement (state funding), must be classified for the appropriate funding and approved by ICCB. This includes both credit and non-credit courses as follows:

PCS 1.1 Baccalaureate/Transfer  
PCS 1.2 Career & Technical Education  
PCS 1.4 Developmental/Remedial  
PCS 1.6 Vocational Skills  
PCS 1.7 Adult Basic Education  
PCS 1.8 Adult Secondary Education  
PCS 1.9 English as a Second Language

New courses of any type, modifications to existing courses of any type, and withdrawal of existing courses must be submitted, via ICCIS, for ICCB Staff review. ICCIS, the Illinois Community College Information System, is the web-based tool ICCB currently uses for online submission of various additions/deletions/modifications. If you have issues with ICCIS, need to add a User at your institution, or need to request a change to a pending submission, please contact Tricia Broughton at [tricia.broughton@illinois.gov](mailto:tricia.broughton@illinois.gov).

Requests to add new courses should be made ***no later than 30 days*** following the offering of the course or ***up to a calendar year prior*** to offering the course. **Exception:** New courses assigned to a new program can not be submitted for approval and to be updated onto the Course Master File until after the new program has been approved by all appropriate Boards. New Courses attached to new programs should be submitted for review only with the new program approval application.

Requests to modify an existing course should be made ***no later than 30 days*** following the offering of the course or ***up to a calendar year prior*** to offering the course.

Requests to withdraw an existing course should be made ***no later than 30 days*** following the last offering of the course or ***up to a calendar year prior*** to its last offering.

When completing the course addition or modification request in ICCIS (which mirrors information required on the Form 11 and Form 12), be sure to include all information before saving/submitting the course. Missing or incorrect information may result in an error with your submission. **BE SURE TO DOUBLE CHECK THE EFFECTIVE DATE OF YOUR SUBMISSION.** Corrections to an effective date ***can not*** be made through ICCIS. You must contact Tricia Broughton at [tricia.broughton@illinois.gov](mailto:tricia.broughton@illinois.gov) for assistance with an effective date correction.

Once a course request has been submitted through ICCIS, ICCB staff will review and either approve or request more information. *ICCB Staff have 30 days to review all requests.*

Contact Tricia Broughton at [tricia.broughton@illinois.gov](mailto:tricia.broughton@illinois.gov) with questions.

## FUNDING CATEGORIES

All courses offered by a community college for which credit hour reimbursement (state funding) is requested must be approved in an appropriate Funding Category. There are six (6) Funding Categories as follows:

Funding Category 1	Baccalaureate/Transfer (PCS 1.0, 1.1)
Funding Category 2	Business & Service Occupational & Vocational (PCS 1.2, 1.6)
Funding Category 3	Technical Occupational & Vocational (PCS 1.2, 1.6)
Funding Category 4	Health Occupational & Vocational (PCS 1.2, 1.6)
Funding Category 5	Remedial/Developmental (PCS 1.4)
Funding Category 6	Adult Education (Basic & Secondary), and ESL (PCS 1.7, 1.8, 1.9)

The Funding Category for a course is determined by the PCS / CIP (Generic Course Code) combination. During course review, ICCB staff will verify the college has selected an appropriate PCS/CIP combination for the proposed content. If acceptable, the course may be approved for reimbursement. If unacceptable, staff have the authority to seek additional information regarding the PCS/CIP request or to make the appropriate change.

More information regarding specific PCS/CIPs in each of the Funding Categories, contact Tricia Broughton at [tricia.broughton@illinois.gov](mailto:tricia.broughton@illinois.gov).

## THE GENERIC COURSE LIST

When courses are submitted to the ICCB, staff checks the accuracy of information, including the PCS and CIP code assignment, since this affects the credit hour reimbursements claimed by each college. Staff use The *Generic Course List*, which is based on the Standard Classification of Instruction Programs (CIP), to ensure that all similar courses are classified the same by the ICCB. In most cases the course categories/codes included in the Generic Course List mirror those included in the ICCB Modified CIP List for use with program classification. However, there are often minor differences meaning college staff should always refer to the *Generic Course List* when determining the proposed CIP code for a new course.

A searchable list of Generic Course Codes and their descriptions is available on the ICCB Website at using the following link:  
<http://iccbdsrv.iccb.org/generic/genericlookup.cfm>

## THE ICCB COURSE MASTER FILE

The ICCB Course Master File is the official record of approved courses for each college. Before offering a new course, colleges are required to obtain ICCB approval. The list contains pertinent data, such as the course prefix and number, course title, PCS/CIP number, credit hours, lecture/lab hours, course effective and ending date(s), variable/repeatable status, and curriculum assignment. **Requests for changes to courses should be submitted at least 30 days in advance of the date the changes are expected to take effect.**

Since the college's term-by-term credit hour reimbursement claim is run against the college's ICCB Course Master File, it is VITAL that the information on file be accurate and that the ICCB Course Master File match the college's information.

Authorized Users can retrieve a current course master file for their institution through ICCIS. Course master file lists may also be requested by contacting ICCB Information Technology staff at (217) 785-0123 or [dp@iccb.state.il.us](mailto:dp@iccb.state.il.us). The headings/descriptions for each field on the Course Master File are indicated on the following page.

**SAMPLE OF MASTER FILE LISTINGS**

Following are examples of what a Course Master File listing would look like if requested by your institution from ICCB. Each of the fields in the record has been labeled and a description of the field provided below.

Colleges should request an updated Course Master File from ICCB on a regular basis. Utilize ICCIS or contact ICCB IT staff at [dp@iccb.state.il.us](mailto:dp@iccb.state.il.us) for this information.

**FORM 11 INSTRUCTIONS**  
**COURSE ADDITION/WITHDRAWAL/REUSE ON COURSE MASTER FILE**

In order for a college to add a new course to its list of offerings, remove (withdraw) an existing course from its list of offerings, or reuse a previously withdrawn course a Form 11 must be submitted to ICCB for staff review and approval. **Paper Course Forms are not required to be submitted to ICCB. The Forms included in this Manual are visual representations of the information required in the proposal submitted electronically, through ICCIS. The electronic version of the Form 11 is available for submission as a proposal through ICCIS. The information requested on the hard copy Form 11 is mirrored in the information required for electronic submission.**

Following is a description of each field for which information is requested on the Form 11. Directions on submitting the electronic version of the Form 11 through ICCIS are also provided.

**Course Prefix, Number and Title:** This information is unique to your college. Each institution has its own method(s) for determining how courses are identified. ICCB uses this information to store information about each approved course on the ICCB Course Master File. The Prefix can be up to 5 characters in length, the Number can be up to 4 characters in length, the Title must be abbreviated at 50 characters.

**Course Contact hour to Credit Hour calculations and verification:** Information on determining the amount of credit hours a given course should be offered for can be found in the ICCB Administrative Rules Section 1501.309 Course Classification and Applicability. This Section defines the required number of instructional contact hours per credit hour awarded. Contact hour to credit hour calculations are based on minimum requirements, using a 50-60 minute contact hour, over a 15-16 week semester.

Contact hour to credit hour requirements are as follows:

**Lecture-oriented courses:** 15 contact hours per 1 credit hour. (i.e. 45 contact hours = 3 credit hours)

**Laboratory, Clinical Laboratory or Clinical Practicum courses:** 30-60 contact hours per 1 credit hour. (i.e. 90 contact hours = 3 credit hours)

**Internship or On-the-Job Training courses:** 75-149 contact hours per 1 credit hour. (i.e. 225 contact hours = 3 credit hours)

NOTES: Instructional contact hour information should be included in the course syllabus, which should be attached to the Course Form/submission via ICCIS.

**Curriculum Prefix and Number:** This information is unique to your college. Each course must be assigned to an approved Active curriculum at your institution. The Curriculum Prefix and Number provided should match an approved Active curriculum on the ICCB Curriculum Master File. The PCS code for the course should, in most cases, match the PCS of the curriculum. Course submissions where this does not occur will be taken into consideration, however the college maybe asked to provide justification for structure, evidence of transferability, curriculum layout, and evidence of faculty qualifications satisfying ICCB rules.

**Course Effective Date:** The day prior to the first day of the course for which apportionment is desired. Forms must be received within 30 days (before or after) of the effective date.

**Times repeat:** The number of times the course can be repeated. A course can be taken once, repeated 1-3 times. The first time a student enrolls is not counted as part of the repeat number. A course can be repeated for a maximum of three times. Courses will be approved for repeatable status only if the course meets the requirements established in ICCB Rule 1501.309h. **Justification for repeatable status for a specific course must be included with the submission of the Form 11 through ICCIS. This is also required for courses being modified from 0 to 1-3 repeats.** The college's catalog, the course syllabus, and the course classification form requesting approval of repeatability by the ICCB must indicate the number of such credits that will apply to degree or certificate

**Program Approval Manual  
November 2022**

completion for a single course or a combination of the course as repeated. Courses that may be repeatable are those in which the content varies from term-to-term or from student-to-student (e.g., independent study, special topics, internships, courses needed to maintain certification and licensure, adult basic and secondary education, and remedial/developmental courses).

NOTE on Special Topics Courses: No topic/issue/seminar can be offered more than twice within 3 years.

**\*\* Notes on Repeatability:** Section 1501.309 h) of the ICCB Administrative Rules outlines requirements for courses to be approved as repeatable. Subsection h)2) outlines options specifically for vocational skills courses which must be retaken by law for persons employed in a related occupation to maintain employment. These courses may be approved for repeatability beyond the limits described in Subsection h)1)A). If you have a course that meets this criteria, please contact Tricia Broughton at [tricia.broughton@illinois.gov](mailto:tricia.broughton@illinois.gov) for information on requesting a waiver to the course repeatability rule limit. Colleges must request and receive approval from ICCB to waive this Administrative Rule **prior to** submitting a proposal for repeatability beyond the regular limit.

**Variable courses:** The maximum amount of credit allowable to earn. If a course is being requested as variable credit 0.5 – 3.0ch, 3.0 would be entered into this field. This includes independent study, internship, or special topics courses whose subject matter and number of credit hours may vary from section-to-section, term-to-term, or student-to-student. The syllabus must show the increments of credit for which the course can be taken. For courses other than internship, independent study, and special topics courses, it is often easier to offer each increment or module as a separate course. The method of determining the amount of credit for each section, term, or student must be specified in the catalog and on the syllabus. **Justification for variable credit must be included with the submission of the Form 11 through ICCIS.** This is also required for courses being modified from non-variable to Variable credit. The college's catalog, the course syllabus and the course classification form requesting approval of variable credit by the ICCB must show the increments of credit for which the course can be taken and must indicate the number of such credits that will apply towards degree or certificate completion for the single course or a combination of the course at variable credit hours. The ICCB Course Master File will list the maximum hours for the course.

Note on Special Topics Courses: No topic/issue/seminar can be offered more than twice within 3 years.

*Please note staff have 30 days to process all requests.*

VOLUME CHANGES  
TO THE COURSE/CURRICULUM MASTER FILE

ICCIS allows users to submit volume changes (to more than 10 course/curricula) via the BULK proposal process. ICCIS provides a change-specific template, in MS Excel spreadsheet format, for users to submit these requests. Users are required to submit a separate proposal with the spreadsheet (in the appropriate template format) attached for each change being requested. ***Neither paper Form 11Bs, 12As, nor separate MS Excel spreadsheets containing this information, need to be submitted to ICCB staff any longer. Requests for volume changes to courses/curricula should only be made by submitting electronically through ICCIS.***

To Make Volume Changes to existing Course/Curricula (electronic submission via ICCIS BULK proposal process):

- Go to BULK.
- Select Course or Curriculum.
- Select the Update (change being requested) Type. The types of changes allowed are dependent upon selection of course or curriculum. You are only allowed to make ONE CHANGE per request.
- Indicate the number of total records being changed.
- Attach the appropriate MS Excel spreadsheet. Templates for change-specific requests are available from the BULK proposal page in ICCIS. Guidelines for error-free submission are also available on this page.
- Select Submit.
- Once the BULK request has processed, it will appear under TRACK as either “Completed” or “Failed”. If the proposal shows “Failed”, click “View Details” for information on which specific records were not processed. Once appropriate corrections to the record(s) are made, the proposal can be re-submitted. For questions, contact Tricia Broughton at [tricia.broughton@illinois.gov](mailto:tricia.broughton@illinois.gov).

## TRANSFER COURSE ARTICULATION

ICCB Rule, Section 1501.309(d)(1)states:

Lower-Division Baccalaureate Courses. Courses designed to meet lower division baccalaureate degree requirements shall be applicable to associate transfer degrees. For each baccalaureate course offered, the college shall either obtain approval for the course to be listed as a statewide articulated transfer course by a general education or baccalaureate major panel of the Illinois Articulation Initiative or maintain current written articulation agreements or transfer equivalency documents with:

- a. at least three Illinois public universities, or
- b. at least three baccalaureate degree-granting institutions to which a majority (51%) of the college's students transfer, or
- c. one or more baccalaureate degree-granting institutions to which a majority (51%) of the college's students, majoring in the field for which the course is required, transfer.

**Therefore, courses that are approved for the Illinois Articulation Initiative (IAI) need no further documentation of articulation.**

**For courses that are offered as part of a transfer program (AA or AS) that are not IAI-approved,** community colleges are required to keep current (within the last five years) articulation documents on file and available upon request from the ICCB.

Colleges have the following four options for articulating transfer courses:

1. Secure approval of a course from an IAI general education or baccalaureate major advisory committee indicating it is articulated statewide.
2. Articulate the course with three Illinois public universities by obtaining three signed Form 13's.
3. Articulate the course with the three baccalaureate degree-granting colleges/universities to which a majority of the community college's students transfer. This option can include private and/or out-of-state colleges and universities. When using this option, the college should verify that a majority of its students transfer to the three colleges and universities where the course was articulated.
4. Articulate the course with one or more baccalaureate degree-granting colleges/universities to which a majority of the college's students in the field for which the course is required transfer. This can be used for fields like agriculture from which a majority of the students transfer to one university. When using this option, the college should verify that a majority of its students in a particular field transfer to the college/university where the course was articulated.

To facilitate articulation of courses with colleges and universities, a special course articulation form (Form 13) developed by the Transfer Coordinators of Illinois Colleges and Universities is included on the next page. Suggested guidelines for completing course articulation requests are available.

## **ARTICULATION REQUEST**

The Articulation Request Form (Form 13) represents a request for evidence of articulation of a course between a community college and a senior institution. The directory of Transfer Coordinators of Illinois Colleges and Universities identifies those individuals responsible for course articulation including the completion of this request. The form and procedures have been developed and approved by the Transfer Coordinators in cooperation with the Illinois Community College Board and the Illinois Board of Higher Education.

### **FORM 13 INSTRUCTIONS**

**For the community college:** The Articulation Request form should be submitted well in advance of the date the course will be used. Complete the community college section and attach the following:

A detailed course syllabus which includes the following:

- a. college name
- b. date syllabus and supportive materials were prepared
- c. course catalog description with course number, prefix, credit hours, and contact hours(lecture/lab)
- d. course prerequisite(s)
- e. objectives of the course
- f. student learning outcomes
- g. weekly or daily topical outline including a topical outline of laboratory experiences, if appropriate
- h. method(s) of evaluation
- i. text(s) used

When appropriate, note:

- a. required reading lists
- b. lab information (e.g., topics covered and a brief description of desired outcomes)
- c. delivery system if nontraditional

Completed articulation agreements should be on file by the time the college submits the course addition forms to the ICCB.

**For the senior institution:** The senior institutions are to complete the appropriate section and return the Form 13 to the community college transfer coordinator as soon as possible.

#### **Notes:**

- The Form 13 must be physically or digitally signed. Typed signatures are not appropriate on this documentation.
- Form 13s must be updated every five years.
- Three Form 13s must be submitted with each new baccalaureate/transfer (PCS 1.1) course requested. The Form 13s are submitted as an attachment to a New Course Addition request the college submits to ICCB for approval via ICCIS.
- Three Form 13s must be submitted with any course changing to PCS Code 1.1. For example, a PCS 1.2 Agriculture course being modified to a PCS 1.1 course. The Form 13s are submitted as an attachment to a Course Modification request the college submits to ICCB for approval via ICCIS.
- Form 13s may also be requested to show evidence of articulation in other ICCB program accountability and compliance initiatives, such as Program Review and Recognition.

***KEEP YOUR FORM 13S UPDATED!***
