_____ Agriculture, Food, and Natural Resources

_____ Government & Public Administration

_____ Science, Technology, Engineering, & Mathematics

_____ Architecture and Construction

_____ Hospitality and Tourism

_____ Arts, A/V Technology, and Communications

_____ Human Services

Provider Manual Bridge Definition Details

Three core elements are required to be included as part of a bridge program:

- *Contextualized instruction* that integrates basic reading, math, and language skills and industry/occupation knowledge.
- *Workforce Preparation/Career development* includes instruction in workplace language, career readiness/exploration, career planning within a career area, and understanding the world of work (specific elements depend upon the level of the bridge program and on whether participants are already incumbent workers in the specific field).
- *Transition services* that provide students with the information and assistance they need to successfully navigate the process of moving from adult education or remedial coursework to credit or occupational programs. Services may include (as needed and available) academic advising, study skills, coaching, and referrals to individual support services, e.g., transportation and child care.

See Program Manual Section 7 for more details.

**Send all completed forms to
ICCB, Associate Director of Program Compliance, Adult Education**
