

Illinois Community College Board Frequently Asked Questions

WHAT IS “DUAL CREDIT” AND HOW CAN HIGH SCHOOL STUDENTS USE IT TO GET AHEAD?

Dual Credit allows academically prepared high school students to simultaneously **earn credits that count toward a high school diploma and a college degree**. Dual Credit instruction delivers a “win-win” arrangement for all parties: students gain access to challenging college-level coursework to make their junior and senior years of high school more productive; students can prove to others and themselves that they have the ability to succeed in college; college costs can be reduced for parents and students; time to degree at college can be shortened; and the enhanced high school and college faculty dialogue can contribute to a better alignment between secondary and postsecondary education.
